

Douglas R. McAllister

Your City Councilman

Listening to understand...Communicating to be understood...Leading to make a difference!

President George W. Bush urged us in his first inaugural address to be not just spectators, but citizens. The Temecula Valley Young Marines know the difference and practice it daily. I'd like to take this opportunity to personally thank them for all that they do in our valley. It is heart warming to know of an organization made up of young people so dedicated to serving our Country at an early age. The many events that this group volunteers for like the Murrieta Father's Day Car Show, several local parades, the Murrieta Fireman's BBQ, the Relay for Life, cleaning homes for the disabled and on and on the list goes, shows that these young people and those who lead them understand and practice real Citizenship.

It is an honor to have this organization in our valley. God speed as you continue to make a real difference here and abroad, representing Murrieta in only the finest ways wherever you go. It is the youth like this, and the leaders that teach them, that truly help make Murrieta such a wonderful place to live.

Sincerely,

Douglas R. McAllister
Murrieta City Council
